

The June edition is now available online , covering annual data for 2007-9 and monthly data for February, March and April 2010. It includes data broken down by country on commercial bank assets and liabilities positions, deposit and lending rates, and reserves; private sector bond issues; and the operations of the regional stock exchange (BVRM) including the number and value of securities listed and traded, market capitalisation, and BVRM and Composite Indices. The Bulletin presents information in both French and English.
